### 2. Reasons for Revision

We have revised downward our forecast for the six months ending September 30, 2025, as we expect net sales, operating profit, profit before tax and profit attributable to owners of the parent to be below our previous forecast, mainly due to weaker-than-anticipated performance in Japan and China.

We leave our forecast for the full fiscal year ending March 31, 2026 unchanged, as we expect recovery in sales in the second half of the fiscal year.

Our foreign exchange assumptions used for calculation of financial forecast for the six months ending September 30, 2025, remain unchanged.

USD1.00 = JPY142.0, EUR1.00 = JPY160.0 and CNY1.00 = JPY19.5

Note: The forecasts above were made based on information available on the day of this release.

Actual results may therefore differ materially from those described above due to various unforeseen factors and possible events in the future.
