November 10, 2026

Announcement Regarding Revision of Full-Year Financial Forecast for the Fiscal Year Ending March 31, 2027

Sysmex Corporation (HQ: Kobe, Japan; President: Iwane Matsui) hereby announces a revision to the full-year financial forecast for the fiscal year ending March 31, 2027, which was previously announced on August 7, 2026.

1. Revised Consolidated Financial Forecast for the Fiscal Year Ending March 31, 2027
(April 1, 2026 to March 31, 2027)

(Millions of yen, unless otherwise stated)

	Net sales	Operating profit	Profit before tax	Profit attributable to owners of the parent	Basic earnings per share (Yen)
Previous forecast (A)	545,000	60,000	56,000	37,000	60.89
Revised forecast (B)	550,000	68,500	61,500	40,000	66.06
Difference (B–A)	5,000	8,500	5,500	3,000	—
Rate of change (%)	0.9	14.2	9.8	8.1	—
(Reference) Results for fiscal year ended March 31, 2026	500,006	51,831	49,051	35,457	56.89

2. Reason for Revision

We have revised upward our forecast for the full-year financial forecast for the fiscal year ending March 31, 2027, as we expect net sales, operating profit, profit before tax and profit attributable to owners of the parent to be higher than our previous forecast, mainly due to strong sales of hematology instruments in the Americas region, an improvement in the cost of sales ratio resulting from tariff refunds recognized in the first half of the fiscal year in the Americas region, and optimization of the group selling, general and administrative expenses promoted in the first half of the fiscal year.

In calculation of the revised full-year financial forecast, the assumed foreign exchange rates for the second half of the fiscal year have been revised from USD1.00 = JPY155.0, EUR1.00 = JPY180.0 and CNY1.00 = JPY22.0 to USD1.00 = JPY155.0, EUR1.00 = JPY175.0 and CNY1.00 = JPY23.0. As a result, the full-year assumed exchange rates have been revised to USD1.00 = JPY157.1, EUR1.00 = JPY179.6 and CNY1.00 = JPY23.3.

Note: The forecasts above were made based on information available on the day of this release. Actual results may therefore differ materially from those described above due to various unforeseen factors and possible events in the future.
