

*Report from the **SYSMEX SCIENTIFIC SEMINAR***

“Sysmex Scientific Seminar 2000 in Thailand”

“Sysmex Scientific Seminar 2000 in Singapore”

“The 3rd Sysmex Scientific Seminar 2000 in China”

On October 26th, 28th, and November 10th 2000, SYSMEX CORPORATION held scientific seminars in three countries in ASIA. We have been conducting scientific seminars in Japan for the last 23 years, and in China since 1998. This year 2000, the 1st scientific seminars were held in Thailand (Bangkok) and Singapore, and the 3rd hematology seminar was held in China (Shanghai).

The scientific program consisted mostly local speakers from each countries and some speakers from outside country. All speakers made excellent presentations with the academic and global topics such as Laboratory management (Laboratory systemization), A laboratory overview of neonatal hematology & coagulation practices, Examination of casts in urinary sediment, Importance of quality assessment with recent advances, and also included introduction of Sysmex analyzers.

In all seminars, many participants including medical doctors, medical technicians had active discussions following the lectures. We believe that all participants benefited from the lectures and discussions in these seminars.

We gratefully acknowledge all participants, speakers, and all others concerned in these scientific seminars. We strongly hope to support that the SYSMEX SEMINAR, will be continue to be welcomed in every countries as well and it will contribute to the progress of clinical laboratories.

Scientific Division of Sysmex Corporation

Seminar in Thailand

Seminar in Singapore

Seminar in China

The Sysmex Scientific Seminar 2000 in Thailand

Date and Place: 26th October, 2000, Bangkok, Thailand

Speakers:

1. Future Trend in Laboratory Management in Thailand

Dr. Navapun CHARURUKS, Chulalongkorn University (Thailand)

2. ICSH ASIA: A Proposed Model for Harmonization of Standard Hematology Laboratories

Dr. Ahnond BUNYARATVEJ, Mahidol University (Thailand)

3. Maximizing the Utility of Automated Hematology Systems for Improved Patient Outcomes

Dr. T.S. KICKLER, Johns Hopkins Hospital (USA)

The Sysmex Scientific Seminar 2000 in Singapore

Date and Place: 28th October, 2000, Singapore

Speakers:

1. Atlas of Haematology

Mr. Angus R. FRASER, Singapore Polytechnic (Singapore)

2. A Laboratory Overview of Neonatal Haematology & Coagulation Practices at McMaster University Medical Centre Canada

Ms. Tan MENG KEE, Tan Tock Seng Hospital (Singapore)

3. Maximizing the Utility of Automated Hematology Systems for Improved Patient Outcomes

Dr. T.S. KICKLER, Johns Hopkins Hospital (USA)

The 3rd Sysmex Hematology Seminar in China

Date and Place: 10th November, 2000, Shanghai, China

Speakers:

1. The Factor VIII gene diagnosis in patients with Hemophilia A

Dr. Qi Shi FAN, Ruijin Hospital affiliated to Shanghai Second Medical University (China)

2. Examination of Casts in Urinary Sediment

Dr. Ke-Liang GU, Zhejiang Medical College (China)

3. A Topic for Discussion of Coagulating Test Normalization

Dr. Hongli WANG, Ruijin Hospital affiliated to Shanghai Second Medical University (China)

4. The History and Newest Candidate of the Reference Method of PLT Enumeration

Mr. Keiji FUJIMOTO, Sysmex Corporation (Japan)

5. Recent Advances and Some Questions of External Quality Assessment Scheme for Haematology Laboratories in China

Dr. Mingting PENG, National Center for Clinical Laboratories (China)

6. The Progress of Lab Medicine and Development Trend of Clinical Lab

Dr. Cong YULONG, Chinese PLA General Hospital (China)
