

Report of the Sysmex Scientific Seminar 2005

The 8th Sysmex Scientific Seminar in China 3rd Sysmex Scientific Seminar in Philippines Sysmex Scientific Seminar in Taiwan, 2005

On 2005, Sysmex Corporation held the Scientific Seminars in three Asian countries - China, Philippines, and Taiwan. Each seminar was great success with a lot of participants. A variety of topics by specialists from various fields were presented. The speakers provided the attendees with the latest and most useful information available. We are very pleased that we can contribute to the academic demand of those who are involved in the medical field and we always look for ways to improve and enhance our seminars in the future.
